

Envelope Book

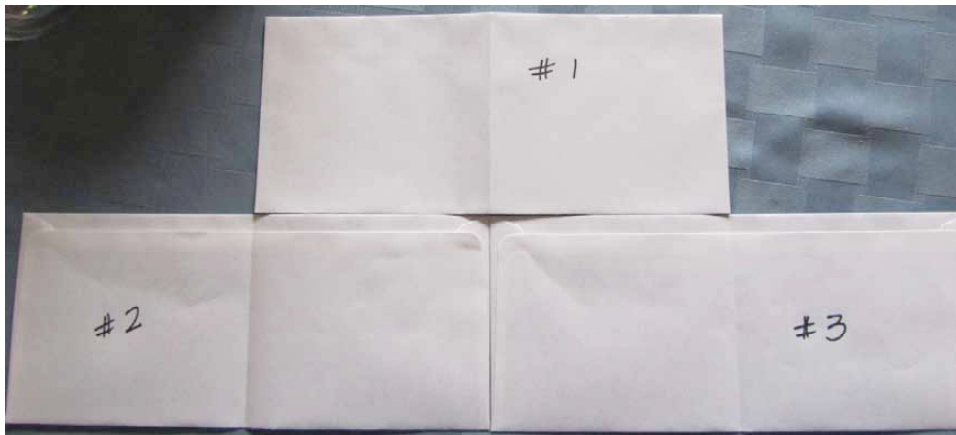

Adapted from: <http://stamphenge.wordpress.com/minibooks/envelope-book-3>

Materials:

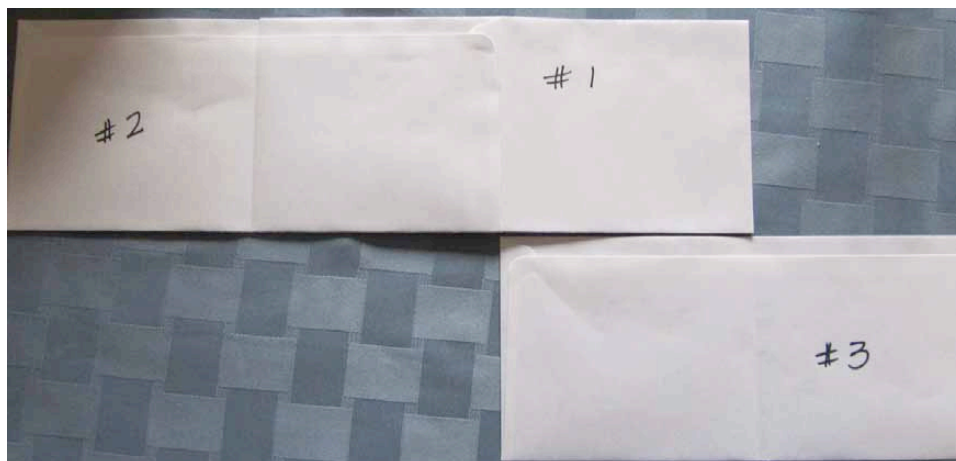

- 3 envelopes all the same size with the same kind of flaps (or more in groups of 3 for longer books)
- glue

Directions:

1. Lick the flaps but put them inside the envelopes – or glue them down. Fold the envelopes in half making sure the edges match.
2. Arrange them with Envelope 1 showing a mountain fold. Below arrange the other two envelopes with valley folds. See picture:

3. Put glue all over the front of Envelope 1. Attach the right hand side of Envelope 2 to the left hand side of Envelope 1.

- Attach the left hand side of Envelope 3 to the right hand side of Envelope 1.

- Accordion fold the envelopes. You can add covers of card stock or colored paper if desired. There will be four pockets that can hold added information.

If you have a long stapler, staple the folds of envelopes #2 & #3 to form separate pockets.

Finished Book
